

A SOURCED STARTING POINT

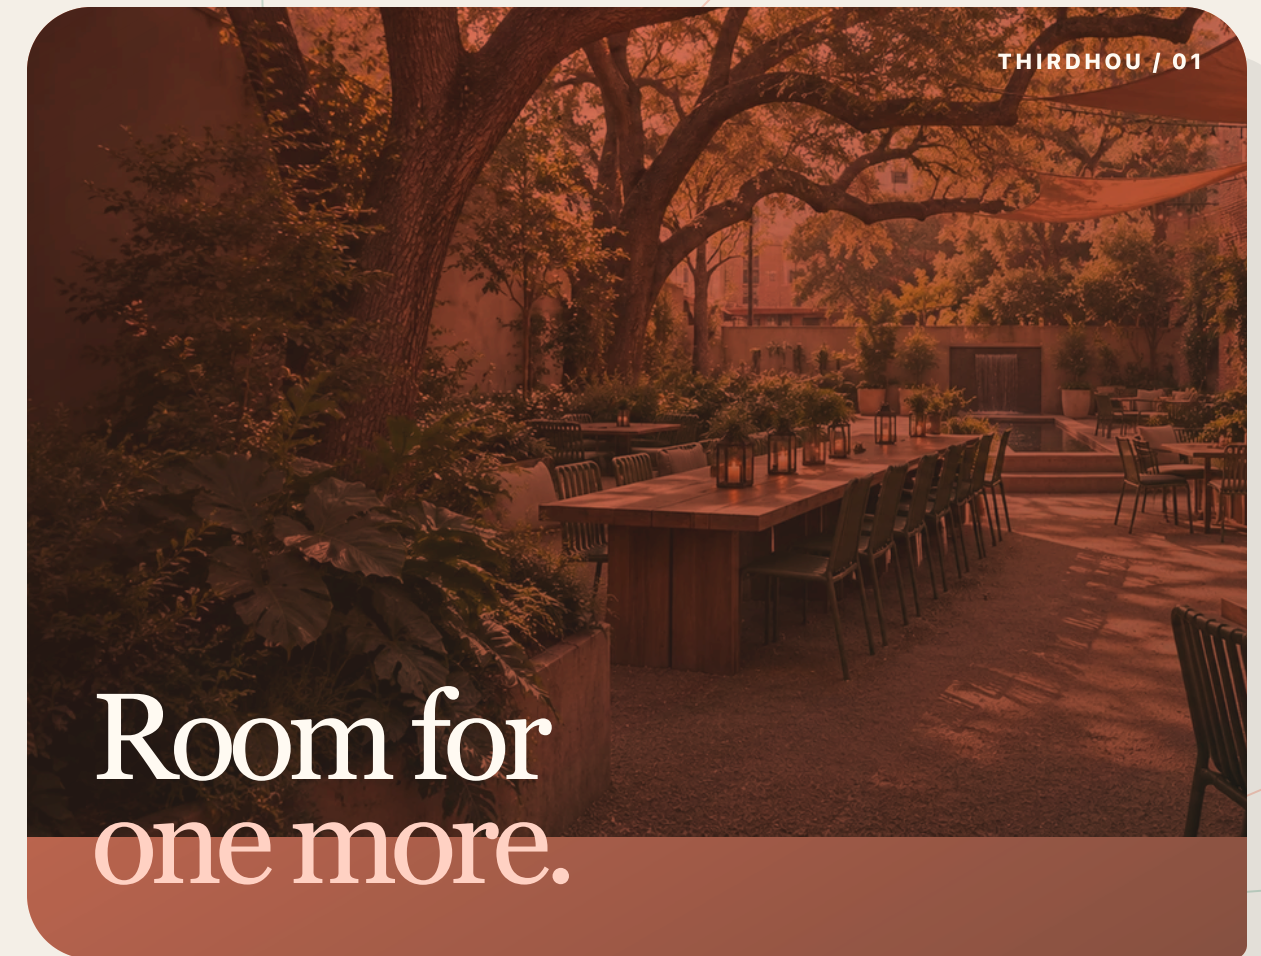

A good place to meet *changes* *a* *neighborhood.*

thirdhou helps people find a practical place to linger,
understand what is known, and make the next
neighborhood idea more concrete.

A LIVE HACKATHON PROTOTYPE • HOUSTON • 2026

Where can different lives *meet comfortably?*

“Create neighborhood gathering places where people from different backgrounds can meet, understand one another, and have meaningful conversations.”

THE OPEN QUESTIONS

What kind of space should serve the first neighborhood?

How much do dogs and pet facilities matter?

What makes access, weather protection, and programming useful?

Start with the places *Houston* already has.

● SOURCED PLACES

6 PLACES

Worth a closer look.

01 **Discovery Green**
Downtown · Park

02 **Levy Park**
Upper Kirby · Park

03 **Emancipation Park**
Third Ward · Park

04 **McGovern Centennial Gardens**
Museum District · Garden

05 **Moody Community Center**
Near Northside · Community center

06 **Eastwood Community Center**
East End · Community center

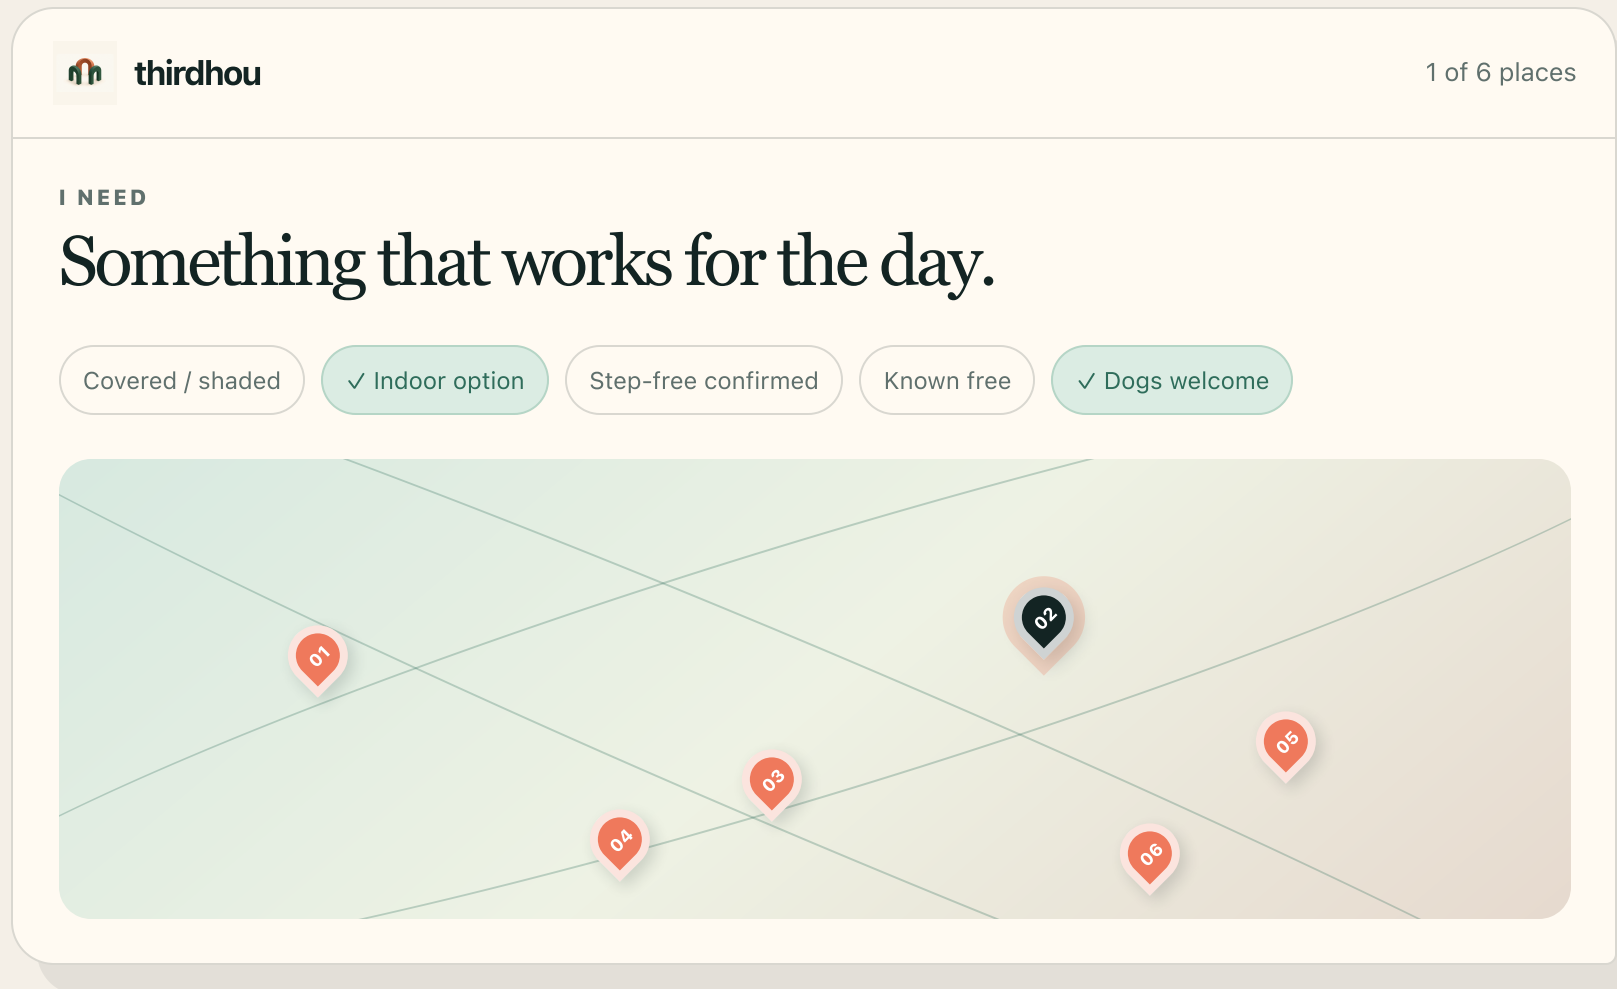

A SMALL, HONEST SURFACE

Real places. Official links. Known details.

Each record carries an operator source and a checked date. If the catalog does not know a detail, the product leaves it unknown.

✓ 6 Houston places · sources checked Sep 26, 2026

Filter for what decides *whether* *you'll go.*

Indoor. The first filter narrows six places to four.

Dogs. A second practical preference narrows four to one.

Levy Park. One real match, with no availability promise.

Unknown. Cost and step-free access still need checking.

Explore → compare → save a shortlist → get directions.

Good civic software knows *what it does not know.*

02

Upper Kirby · Park

✓ source checked

Levy Park

3801 Eastside St, Houston, TX 77098

WHY IT'S HERE

Shaded pavilion, activity lawn, reading room, garden, and dog areas

ACCESS

Levy Park · Visit ↗

A PRODUCT PRINCIPLE

Unknown is a useful answer.

Every place detail points back to the operator. The interface separates confirmed facts from details a resident still needs to check before planning a visit.

- Not live availability.
A better starting point.

Turn “someone should...” into *a resident signal.*

RESIDENT SIGNAL

Make the next place more possible.

What would your neighborhood make room for?

Alief, Third Ward, East End |

A shaded place where neighbors could...

Your draft stays on this device.

Sign in & send ↗

- 01 Save a place.**
Keep the maybe.
- 02 Draft an idea.**
Name the moment.
- 03 Mark interest.**
Private for now.

Proposals and meetup interest require verified identity. They are not public RSVPs, reservations, or a promise that a facility will be built.

A small prototype with *a realistic next move.*

01 / PROGRESS

Live now

Six source-backed places, map pins, fit filters, details, directions, shortlist, and private resident signals.

SHIPPED

02 / PRACTICAL

Try one neighborhood

Ask neighbors what makes a place usable through Houston weather, access needs, and different rhythms of gathering.

NEXT TEST

03 / POTENTIAL

Make the signal legible

With consent and a moderated workflow, learn which small spaces deserve a real conversation with operators.

OPEN QUESTION

- **Interest is not impact.** It is the next question made easier to ask.

Make room for *one more conversation.*

thirdhou

A good place to meet
*can change a
neighborhood.*

Room for one more.
